

Interdisciplinary Graduate Program in Molecular Medicine

Fall 2017 Workshop & Seminar Series

“Uncovering the Developmental Functions of Nuclear Actin”

“Identifying Transactivation and Nuclear Localization Domains
of SYS-1/ β -catenin, a Regulator of Wnt target
Gene Expression and Asymmetric Cell Division”

September 26, 2017/11:30 a.m./1459 PBDB

Daniel Kelsch
Molecular Medicine Graduate Student
Tootle lab

Koon Yee Lam
Molecular Medicine Graduate Student
Phillips lab
