

Iowa Human Trafficking Data

Human trafficking statistics are difficult to obtain. There is no centralized or mandatory data base for cases of confirmed or suspected human trafficking. Nevertheless, we hope these numbers give you a sense of how many victims/survivors our local agencies are caring for on a yearly basis. Of note, most of our local organizations that serve victims/survivors often do not report to the national hotline.

National Hotline Information for Iowa:

- 98 Human Trafficking Cases Reported in 2019

A Few Local Organizations' Numbers
