

HARDIN LIBRARY FOR THE HEALTH SCIENCES

www.lib.uiowa.edu/hardin 319-335-9151

LIAISON LIBRARIANS

Liaisons provide an educational link between Hardin Library and the health sciences campus by teaching library education sessions for groups or individuals. We can also assist you with the following and more.

- Literature searching
- Course reserves
- Authors' rights & copyright
- Systematic review searching
- Research data management
- NIH public access policy
- EndNote
- Scholarly impact & ORCID
- Predatory publishing

Find your liaison at <http://www.lib.uiowa.edu/hardin/liaisons/>

LIBRARY RESOURCES

Links to the following resources are on the Hardin homepage at <http://www.lib.uiowa.edu/hardin>.

Databases

- Many of the most-used databases are listed in the Popular Resources box.
- The full list of health sciences resources is at <https://guides.lib.uiowa.edu/az.php?s=119595>
- Using the PubMed link on Hardin's site lets you link directly to many full-text articles, even from off-campus, by clicking on the UILink next to the article.

Mobile Devices Guide

- This guide, linked in the Popular Resources box, will walk you through installing app versions of library resources.

InfoHawk+

- InfoHawk+, available near the top of Hardin's homepage, is the library catalog used to locate electronic and print books and journals at the UI Libraries.
- Uncheck the Focus box (Focus OFF) to include articles in your search results; however, directly searching a database like PubMed will usually get better results in your article search.

E-Journals

- Use the E-Journals link on the homepage to access the UI Libraries' complete list of full-text electronic journals.
- The UILink next to articles in PubMed and other databases links directly to the article.

Subject Guides

- The Subject Guides link leads you to liaison-created guides that help you quickly find relevant information for your field as well as for other topics.

EndNote

- This citation management tool can help you store, organize, and share citations and automatically format in-text citations and bibliographies.
- Find help and (free!) download information at <http://guides.lib.uiowa.edu/citingsources>
