Special Repeat! Working with the UCSC Genome Browser

April 24, 2017, 10:00am – 12:00pm
IIHG Computer Lab (new location!), 5159 Westlawn

Michael S. Chimenti, Ph.D.
Specialist, Bioinformatics Division, Iowa Institute of Human Genetics

Special Repeat Mini-course: This mini-course is for anyone in the University research community looking to leverage the powerful research tool known as the UCSC Genome Browser in their work. We will cover an overview of the browser, navigating genes, viewing annotations, and linking out to other databases and literature.

Space is limited, so sign up today at medicine.uiowa.edu/humangenetics.
