**Introduction to Galaxy for Bioinformatics**

**February 27, 2017, 10:00am – 12:00pm**

*IIHG Computer Lab (new location!), 5159 Westlawn*

**Michael S. Chimenti, Ph.D.**

*Specialist, Bioinformatics Division, Iowa Institute of Human Genetics*

This mini-course will introduce students to Galaxy the web-based graphical interface for bioinformatics. Students will learn about public, local, and cloud-based Galaxies. We will cover the basics of using Galaxy in the browser, the kinds of tools available, how to share datasets, and the fundamentals of building workflows for reproducible research.

Space is limited, so sign up today at [medicine.uiowa.edu/humangenetics](http://medicine.uiowa.edu/humangenetics).
