

## **Postdoctoral Position Available**

A postdoctoral position is available immediately in the laboratory of Kamal Rahmouni, Ph.D., in the Department of Neuroscience and Pharmacology at the University of Iowa. A highly motivated postdoctoral scholar is needed for funded research on the neurobiology of energy homeostasis, autonomic regulation and blood pressure control relating to obesity.

A qualified candidate for this position is expected to have strong publication record and excellent references from graduate research. A notable feature of this postdoctoral position will be experience in combining state-of-the-art genetic and molecular methods with sophisticated neural, metabolic and cardiovascular physiologic techniques to address fundamental mechanisms of neuronal regulation of energy homeostasis, autonomic function and cardiovascular system. Proficiency in molecular biology techniques and immunohistochemistry is required and experience with optogenetic, chemogenetic and/or neurophysiology is highly desired.

To apply, please email a curriculum vitae, letter of interest, and names of three references who can be contacted to [kamal-rahmouni@uiowa.edu](mailto:kamal-rahmouni@uiowa.edu).

The University of Iowa is an equal opportunity/affirmative action employer. All qualified applicants are encouraged to apply and will receive consideration for employment free from discrimination on the basis of race, creed, color, national origin, age, sex, pregnancy, sexual orientation, gender identity, genetic information, religion, associational preference, status as a qualified individual with a disability, or status as a protected veteran.

Iowa City and the surrounding area consistently rank as a top community in which to live, work, play, and raise a family.
