emrU: deepening curriculum integration

emrU at the AAMC:

Dr. David Asprey, Assistant Dean for Student Affairs and Curriculum, and Dr. Douglas Van Daele, Physician Leader, University of Iowa Physicians are presenting a panel on electronic medical records in the curriculum with Dr. Aaron Michelfelder (Layola) and Dr. Maureen Novak (University of Florida) next week at the AAMC. (November 11th, 9:30-10:30). Boyd Knosp, Associate Dean for Information Technology, will be moderating.

Did you know?

We currently have 1207 users in emrU, most of whom are students.

In case you missed it:

emrU GIR poster & handout available online

Our [poster presentation](#) and [accompanying handout](#) from [June's Group on Information Resources \(GIR\) conference](#) are available on the [emrU website](#). For details on our presentations and the GIR conference, please review the [June 2014 emrU newsletter](#).

If you would like to share emrU with colleagues or your leadership, we recommend [this handout](#) as a useful aid to any elevator pitch.

Reminder: HIPAA no longer required for emrU access.

emrU access no longer requires users to have HIPAA compliance on file, which reduces the paperwork hurdle required to bring new students online with emrU.

To be clear, this change *only* applies to access to the EMRU Epic software environment. It *does not* apply to the UIHC_PRODUCTION Epic environment used daily across UI Health Care to provide patient care.
