

Words of Advice

Take the opportunities presented and seek ways to gain new skills and knowledge.

Amel Dudakovic, Ph.D.
Associate Consultant
Assistant Professor of Orthopedics
Dept. of Orthopedic Surgery, Mayo Clinic

Dr. Dudakovic's research studies are focused on advancing the health of patients affected by musculoskeletal conditions. Specifically, his research aims to identify molecular events that can be targeted to address bone, cartilage, and fibrotic conditions.

Completed PhD in Pharmacology: 2010
