

Words of Advice

Knowing the fundamentals of pharmacology will serve you all well.

‘Fortune favors the prepared mind.’

Bryan Cox, Ph.D.

CEO of Nephraegis Therapeutics

Chief of Research, TriSalus Life Sciences

Adjunct Professor of Neuroscience and Pharmacology

Nephraegis Therapeutics is a Biotech company dedicated to treating renal disease. Based on research from academia, Nephraegis is advancing a series of epoxyeicosanoids to protect renal function in Acute Kidney Injury and Chronic Kidney Disease.

TriSalus Life Sciences has a proprietary endovascular technology with target therapeutics to treat some of the most challenging cancers in the liver and pancreas. This device technology can be paired with the company’s novel TLR9 type C agonist, which has advanced to clinical trials.

Completed PhD in Pharmacology: 1987
