

## **Words of Advice**

Research can be a frustrating business, so find good mentors to help you through the ups and downs and keep a healthy perspective.

Keep your project organized and with clear goals and realistic timelines for completion.

**Jason Ulrich, Ph.D.**  
**Associate Professor of Neurology**  
**Washington University, St. Louis**

Dr. Ulrich works alongside Dr. David Holtzman to investigate the role of APOE and the immune system in Alzheimer's disease.

Completed PhD in Pharmacology: 2011
