Skills for Educators Workshop:
Scholarship and Research
Marcy Rosenbaum, Ph.D.
Patrick Barlow, Ph.D.

April 16, 2020
8:30-11:30AM
Melrose Conference Rooms 1 & 2

Conduct research related to medical education questions and innovations.

Objectives:
- Define educational scholarship.
- Describe how to formulate an educational research question.
- Make decisions in relation to study design/conceptual framework and implementation of educational research projects.
- List potential venues of dissemination/publication of medical education scholarship.
- Search the medical literature.

Presented by:
The Office of Consultation and Research in Medical Education (OCRME)
University of Iowa Roy J. and Lucille A. Carver College of Medicine

Pre-registration is requested. Please register with Stephanie at 335-8901 or stephanie-burnett@uiowa.edu

Individuals with disabilities are encouraged to attend all University of Iowa-sponsored events. If you are a person with a disability who requires a reasonable accommodation in order to participate in this program, please contact OCRME in advance at 335-8901.
