Skills for Educators Workshop:
Simulation for Everyone: Incorporating Simulation into Your Teaching Practice
Jane L. Miller, Ph.D.

March 26, 2020
8:30-11:30AM
4999 JPP

Faculty often associate simulation with its tools-like standardized patients, mannequins, and screen-based simulations-rather than the practices that make simulation successful. This session will explore examples of low-resource, high-impact simulations and simulation strategies (such as Start-Stop-Rewind) that can be incorporated into multiple didactic and clinical teaching environments.

Presented by:
The Office of Consultation and Research in Medical Education (OCRME)
University of Iowa Roy J. and Lucille A. Carver College of Medicine

Pre-registration is requested. Please register with Stephanie at 335-8901 or stephanie-burnett@uiowa.edu

Individuals with disabilities are encouraged to attend all University of Iowa-sponsored events. If you are a person with a disability who requires a reasonable accommodation in order to participate in this program, please contact OCRME in advance at 335-8901.
