A Leader in Healthcare

SRHC is a community owned, not-for-profit hospital with more than 2,000 employees and a diverse medical staff of over 150 physicians. SRHC serves as the regional hub for state of the art medical services, providing a higher level of healthcare to a 14 county area of north central Kansas. In October 2013 SRHC opened a new 18 bed Intensive Care Unit. This expansion comes on the heels of our new $70 million dollar, six story patient tower, a new 26 bed Emergency Room and Tammy Walker Cancer Center. Salina is home to the University of Kansas School of Medicine Salina campus & Smoky Hill Family Medicine Residency Program.  

*We are not only succeeding—we are leading the way in healthcare in Kansas!*
