At Planned Parenthood North Central States (PPNCS), we believe all people deserve the right, the freedom and the opportunity to follow their personal ambitions and choose their own path toward a healthier, more meaningful life. That’s why we protect, promote and provide comprehensive and progressive sexual and reproductive health care for generations of young people and families with empathy, care and respect. We are looking for passionate, dedicated staff who are eager to make positive contributions to their community and to the Planned Parenthood mission.

Under general administrative supervision of the Health Center Manager, clinical supervision of and collaboration with the Director of Clinical Practice and Medical Director, the Nurse Practitioner (NP), Certified Nurse Midwife (CNM) or Physicians Assistant (PA) provides clinical services, including reproductive health care, to patients at designated PPNCS clinic(s). The NP/CNM/PA are advocates in implementing our mission of “Affirming the human right to reproductive health and freedom.”

Perform other related as assigned.

- Work with the health care team to meet established productivity standards for center revenue, expense/margin, patient numbers, and quality and customer service.
- Maintain working knowledge of Planned Parenthood policies and procedures and apply these to patient and clinic services.
- Secure a complete health history, including personal, family and social histories; perform physical examinations and document findings in the electronic health record.
- Perform order and interpret diagnostic tests as indicated.
- Manage and treat problems and emergencies per medical standards and guidelines, consulting with a Senior Clinician or physician when indicated. Refer patients for further evaluation, as appropriate.
- Make and follow through on appropriate medical and social referrals and provide liaison with health and welfare agencies in conjunction with other staff.
- Assist with training of staff in areas of medical care. Provide consultation to staff regarding phone calls and patient scheduling.
- Prescribe all FDA approved methods of birth control.
- Provide specific instruction on the patient’s selected birth control method.
- Inform patients in a non-directive manner about all options available to them in the event of an unintended pregnancy and make a referral for service based on the patient’s needs.
- Describe the difference between a medication and surgical abortion.
- Provide factual, non-biased information to patients seeking an abortion.
- Refer patients for abortion, prenatal care or adoptions services.
- Counsel HIV+ clients.
• Participate in the development and implementation of medical standards and guidelines and quality control systems.
• Serve as a clinical mentor/trainer to students in medical training programs as indicated.
• Follow all state laws regarding mandatory reporting.
• Comply with state laws governing abortion services
• Respond to staffing needs at other sites as needed.
• Participate in on-call rotation as needed.
