

Two Faculty Positions
Department of Physical Therapy & Rehabilitation Science
Carver College of Medicine
The University of Iowa

Academic Rank

- Tenured (tenure track) positions at the associate or full professor level. Outstanding junior faculty applicants will be reviewed.

Qualifications

- A distinguished level of accomplishment in one or more areas related to 1) Biomechanics/Neuro-musculoskeletal plasticity/Human Performance with expertise in human movement analysis; 2) Human Health and Activity expertise with a focus on Aging, Metabolism, Diabetes, and/or Cognitive Function with expertise in epidemiology, molecular, or energy expenditure analysis. Both positions require either current expertise or demonstrated plans to translate work through Controlled Clinical Trials.
- Excellent track record with outstanding levels of current funding.
- Demonstrated excellence in building successful collaborative research teams.

University of Iowa Health Care Campus

Responsibilities

- Direct an integrated and collaborative research program in specialty area within the Carver College of Medicine.
- Sustain/expand federal extramural support and scholarship.
- Mentor student physician scientists, post-doctoral scholars, and pre-doctoral students.
- Oversee content expertise within a highly ranked Rehabilitation Science and Physical Therapy Curriculum.
- Collaborate with medical specialists, engineers, public health officials, basic scientists, and health science experts within the University and throughout the country through multi-center collaborations.
- Serve on selected committees within the department, college, university, and nation.

The Physical Therapy and Rehabilitation Science Department in the Carver College of Medicine offers a nationally ranked Doctor of Physical Therapy (DPT) degree (6th) and a highly successful Doctor of Philosophy (PhD) degree in Rehabilitation Science. The academic programs attract students from medicine, exercise physiology, engineering, physical therapy, psychology, geriatrics, neuroscience, biosciences, and the health sciences. Core research facilities are state of the art within the College of Medicine. A funded CTSA supports translational work throughout the college. The Carver College of Medicine is part of the UI healthcare complex, which is nationally ranked as one of "America's Best Hospitals." Iowa City is a vibrant community with a long standing commitment to the arts, sciences, and education.
