DPT Class of 2019  
Case Presentation Schedule  
Rm 2117 MERF

Wednesday, December 18th 1:00 – 5:15 PM

Welcome Reception

1:00 – 1:45 pm  MERF Atrium
Welcome our returning DPT students to campus
Light refreshments provided.

1:45 pm Welcome and Opening Remarks – Laura Frey-Law, PT, PhD

1:45 – 3:30pm  Session 1: Pediatric Cases (1.75 CEUs)

2. Use of Functional Electrical Stimulation for Functional Mobility of a Pediatric Patient with Cerebral Palsy: A Case Report - Marie Schnoebelen
3. Choosing an Orthosis for an Individual with Spastic Hemiplegia following Hemispherotomy: A Case Report - Kimberly Kroeze
4. A Discussion of the Limitations of Standardized Testing in a Pediatric Patient with a Chronic Neurological Disorder: A Case Report - Emily Steffanus
5. Vestibular Rehabilitation in a Pediatric Patient with Sensory Dysfunction of the Vestibular System: A Case Report - Riley Bradley
6. Assessment of Severity Measures used to Predict Prognostic Outcomes in Children with TBI: A Case Report - Sabrina Casares

3:30 – 3:45 pm Afternoon Break

3:45 – 5:15 pm  Session 2: Neurologic (TBI, etc) Cases (1.5 CEUs)

1. Progression of Functional Mobility Recovery after a Severe Traumatic Brain Injury: A Case Report - Karen Eilers
3. The Complexity and Variability of the Female mTBI Patient: A Case Report - Logan Lynch
4. The Clinical Reasoning and Multi-Modal Rehabilitation Approach in a Patient with Post Concussive Syndrome Following a Moderate-TBI: A Case Report - Bryan Sumner

Free continuing education credit based on the time attended (1.0 CEUs per hour), that may be applied toward re-licensure requirements for PTs and PTAs in the State of Iowa.
Thursday, December 19th 9:00 AM – 12:30 PM

9:00 – 10:45am Session 3: Neuro Rehabilitation (SCI, pain etc) Cases (1.75 CEUs)

1. Incorporating Biofeedback as a Treatment Tool when Managing Whiplash During Pregnancy - Jordan Crosser
5. Comparison of Functional Mobility Milestones and Associated Prognostic Factors Following Traumatic Spinal Cord Injury at an Inpatient Rehab Facility - Eric Huber

10:45 – 11:00 am Morning Break

11:00 am – 12:30pm Session 4: Neuro Rehabilitation (Parkinsons, etc) Cases (1.5 CEUs)

2. The Application of Lee Silverman Voice Treatment (LSVT) – BIG with a Patient Diagnosed with Parkinson’s Disease: A Case Study and Literature Review - Reginald Hochstedler
3. Utilization of AutoAmbulator as an Adjunct to Physical Therapy in an Individual with Parkinson’s Disease - Megan Loux
4. Using a Symptom-Based Approach to Gait Progression in a Patient with Lateral Medullary Syndrome: A Case Report - Katie Hackert
5. The Differential Diagnosis of ADEM vs MS: A Case Report - Nicole Dominguez

12:30 – 1:30 pm Lunch on your own

Free continuing education credit based on the time attended (1.0 CEUs per hour), that may be applied toward re-licensure requirements for PTs and PTAs in the State of Iowa.
