

## **Advanced Clinical Radiology – 2 or 4 Week Senior Elective**

This elective is intended for students who want to improve their radiologic abilities whether or not they plan to pursue a career in radiology. The course consists of 2-4 rotations in the radiologic subspecialties of the student's choice. This is a hands-on rotation in which the student will become a full member of the clinical team participating in all aspects of patient care including radiologic procedures. Upon successful completion of the rotation, the student will be able to: 1) develop differential diagnoses of common pathology based on radiographic imaging, and 2) understand the appropriate integration of radiologic imaging into patient management.

### **Requirements**

Successful completion of the Clinical Radiology clerkship, or the equivalent at another qualifying institution, is a pre-requisite for this course.
